Best answer: When you change to another session or a different computer it will remember your account name and password. You may need to log out and log back in again on the new session. When you sign out it is stored in the system and remembered until the next time you log in to this computer. I'm new to the forum but have been reading for a while and I'm sure its a real pain. I am trying to export and save photos from my iphone to my computer. When I hit export it says it was successful but I can't open the photo on my computer. Any and all help will be appreciated! When I hit export it says it was successful but I can't open the photo on my computer. Any and all help will be appreciated! Same error here. You're in the right place to get help, but it's taking a while. Try looking at the PDF instruction sheet or doing a Google search. It's a complex process to export and share photos so you should start with the Google searches. Sandra, It's a system error. Make sure you check the permissions and ownership. You could save the file to your phone to get it out of the system, or when you connect a computer to the phone (USB or wired) you can pull the file off the phone and onto the computer for viewing. ShawnP, I'm a fan. I'm glad you enjoy the game. (gonna crash if I talk too long.) Angela, Your best choice is to switch to a different computer until the process is complete. You could also try exporting it to another smartphone. When you connect your phone to the computer it should have the option to import, if you want to try that. Hope it helps. Gabe, Yep. It's a system error, and you're in the right place to get the help you need.[Intravenous immunoglobulins in Guillain-Barré syndrome: efficacy analysis based on multicenter prospective studies].
